Introduction to the Voter Guide

This Guide is brought to you by Advocates for Bradley County in partnership with Church Voter Guides.

Church Voter Guides is an independent 501(c)(3) faith-based nonprofit organization. We serve the public by providing objective research and education on matters specifically of interest to Christians, primarily through the production and distribution of 501 (c)(3)-compliant, nonpartisan voter guides.

Church Voter Guides does not endorse or oppose any candidates for public office or any political party.

Church Voter Guides, a Tennessee nonprofit, initially started in Colorado Springs in April of 2021. This new Voter Guide for the 2026 Republican Primary is being distributed electronically only, both through our interactive website and by downloadable and printable PDF files. We have produced one Voter Guide for each seat that is: (1) conducting a contested election this year, and (2) for which at least one candidate in that election answered our Questionnaire. Our Voter Guides are being promoted through a wide-ranging network of area churches, faith-based non-profit organizations, mainstream and social media, and other means.

The purpose of our Voter Guides is to educate and inform voters of each candidate's positions on a variety of policy issues that they are likely to address if elected. As a Voter Guide designed to be distributed through Churches, we ask the candidates questions on topics that are of utmost interest to the Christian voter

How to Get the Most Benefit from this Voter Guide

The core information in this Voter Guide comes directly from the County Primary Elections candidates themselves. We asked them questions, they answered (with a 120 word limit), and we have published their responses here. In order to understand and utilize this information to the fullest, so that you may vote in the most informed way, we suggest the following:

1. Pray and ask the Almighty for discernment. The Kingdom of God is all about truth, while politics is a system fraught with compromise. Make sure you consider the candidates' answers with a Heavenly mindset.
2. Ask yourself, "Did the candidate actually answer the question, or rather side-step it, or give a fluff, wishy-washy, and/or 'political' type answer that leaves you not really knowing where he/she truly stands on the issue?"
3. Learn more about the candidates running for County School Board including their positions on issues we did not cover in our questionnaire, by visiting their official campaign websites (if they have one.) The website URL for each candidate is listed in the Voter Guide.
4. Educate yourself more about the Christian/Biblical perspective regarding many of the subjects covered in our Voter Guide.
5. Use search engines to find additional information about each candidate, including written articles and videos, other voter guides, and even voting records for those who have served in public office before. You may even want to watch online recordings of the local County School Board meetings to see how incumbents conduct themselves and vote.
6. Reach out to the candidates themselves through the provided email addresses and other means, in order to ask them questions of personal importance to you. Please make sure to show great respect toward each candidate and his/her time, especially to those with whom you disagree. Running for office is hard, stressful, time consuming work, and these are your fellow citizens who have lives, families, jobs...and feelings (just like you!)

What makes a Voter Guide 501(c)(3) - Compliant and Nonpartisan?

Federal tax law permits nonprofit 501(c)(3) organizations to develop and distribute materials about political candidates' positions on issues, in order to educate voters impartially and on a nonpartisan basis; meaning that it is free from party affiliation, bias, or designation. The IRS states that 501(c)(3) organizations may conduct any range of activities to promote voter participation and educate voters so long as it is nonpartisan. But, 501(c)(3) organizations are explicitly prohibited from supporting or opposing candidates for public office.

Some of the activities 501(c)(3) nonprofits *MAY* perform: Conduct or promote voter registration; educate voters on the voting process; distribute nonpartisan sample ballots, candidate questionnaires, and **voter guides**; organize "get-out-the-vote" activities; encourage and help people to vote; educate the candidates on issues important to their organization; and continue to do issue advocacy during an election.

So, first and foremost: **Church Voter Guides** does **NOT** endorse or oppose any candidates for public office or any political party.

Second, all of our staff and volunteers are required to act in a nonpartisan manner when working for or representing the organization and the creation of the Voter Guide.

Third, we do not edit, revise, or editorialize candidate responses to our Questionnaire. We do not even correct typos. **Candidate answers are published verbatim**, ensuring that their responses accurately represent their positions and perspectives on these issues. We then simply share this information through the Voter Guide, and you decide whom you believe to be the best candidate.

To be fair and impartial, we reached out by email, text, and phone when determined necessary, to all registered candidates running for County School Board throughout Bradley County for their 2026 elections, inviting them to answer our questionnaire. Candidate information is presented in alphabetical order by **last name**. If a Candidate did not respond at all, or did not choose to participate, or did not choose to respond to certain answers in the questionnaire, then it is noted where applicable. If there were not enough candidates running, then we did not produce a Voter Guide for that seat.

Join Our Growing Grassroots Coalition of Citizens, Churches/Nonprofit Organizations, and Media Partners Committed to Promoting the Voter Guide throughout Our Region

Let's get the word out!

It's simple. Just share our website URL all around the Bradley County region:

www.BradleyTNvoterGuide.com

Tell your friends and neighbors, post on social media, and ask your Pastors to promote it to your congregation (we'll even provide you /them with the announcement info and the slide deck.)

Please contact us for any reason, we'd love to collaborate with you:

Candidate Information

Email Address: sandyandkurt055@gmail.com
Occupation/Vocation: retired nurse/teacher
Years as a resident of Bradley County: 23
Military Background: veteran of United States Air Force Nurse Corps
Campaign Website: none

1) Purpose: What do you view as the purpose and role of the Bradley County School Board?

Primarily, I see the school board as being tasked with overseeing the proper education of our public school students. This requires staying within designated budget requirements. This cannot happen without also providing proper maintenance and upkeep of buildings and grounds with consideration for student safety and well-being of all children within the system under our care. The school board is also responsible for policy, which must reflect transparency and honesty in dealing with parents and public entities.

2) Candidate's Focus/Initiatives: What are your areas of special focus and/or expertise and what top three initiatives would you undertake as Bradley County School Board Member?

I come from a background of nursing and education. During my years of teaching, I have organized and implemented curriculum for RN students, LPN students, CNA students, and high school Health Occupations students, so I understand the challenges teachers face in the classroom. I can also assess health issues and how they intersect with education. First of all, any decisions should always have a positive affect on classroom education as the primary goal. Secondly, safety of the students is essential at all times. After these two major challenges, I would seek to prioritize open communication between parents, teachers and administrators.

3) Moral Values: Should government laws, ordinances, regulations, etc. follow the moral principles of the Ten Commandments? Why, or why not?

Ideally, the law of the land is closer to Biblical principles as it reflects the Ten Commandments. I have no objection to any of these moral principles. These are guidelines which God gives to provide the best environment for raising children and maintaining order and harmony in any society. They are certainly ideals our government should aspire to achieve.

4) Vision: What is your plan to get our schools back to the basics and fundamentals of public education?

I would plan to assess needs in the classroom and seek to apply the budget in a way to meet those needs in the best way possible. Teachers need to be supported and listened to. Teacher training should reflect their needs. It should address practical needs such as classroom management and draw from experienced teachers who are successful.

5) Budget: Over 60% of taxpayer money goes to education in Bradley County. Only about 1/3 of 3rd and 8th graders are able to read at grade level. Without raising the budget, what is your solution to improving reading levels?

I would want to assess how much time students spend actually reading at school and how much time is spent on computer screens. Research and assessment of schools that are successful with reading scores could certainly offer some insight into the problem. It is a major concern that our students are struggling with this deficit and it should be looked at closely in order to pinpoint weaknesses in the system.

6) Parental Rights: What is the best way to involve parents in the student's education? Who do you believe is the most important stakeholder in a student's education?

Communication is essential. Many working parents are very busy and it may require reaching out personally for a conference or inviting the parents to parent night or open house to initiate contact. Certainly the parent or guardian is the key stakeholder and the one with a continuous ongoing relationship with the child. As a member of the school board I would seek to keep an open mind in individual situations to encourage transparency among teaching staff and administration to resolve issues in the best way possible.

Independent Survey by

In partnership with

7) COVID Protocol: What is your position on school vax requirements, testing, contact tracing, masking and quarantines in the schools?

My position is always the best interest of the student. Sometimes the health department mandates school closures for flu epidemics for a limited time until the situation dissipates. Also, while students and staff are out recovering, a complete and thorough cleaning of the building might be helpful. I believe vaccines should be evaluated for their risk/benefit ratios. There have been some studies addressing this issue. The studies should be scientific and not biased in their approach. Some communicable diseases require contact tracing and testing if it comes under the health department guidelines. Some of the extreme practices during COVID 19 seemed to be overkill. Masks don't seem to be that helpful. Handwashing is key to prevention of most communicable diseases.

8) CRT: What is your position for a curriculum that incorporates the teaching of diversity, equity and inclusion, Critical Race Theory and Social-Emotional Learning?

These are political-type issues. I fail to see their place in the classroom when students are struggling with reading comprehension. I don't see these issues as fundamental for education of our students. Basic respect for all students regardless of race or ethnic identity should be incorporated into general classroom protocols. Disrespectful behavior of students in regard to these issues should not be tolerated.

9) Social-Emotional Learning/Sex Education: What is your stance on comprehensive sex ed, including details of LGBTQ sexual relationships, being taught in schools K-12? What is your stance on gender neutrality, co-ed bathrooms, trans sports?

Sex education should be age specific. Certain details should be delayed to closer to puberty, when children need to know about their bodies and reproduction processes. Details of LGBTQ sexual relationships has no place in public education. Co-ed public bathrooms are not appropriate, even for adults. I do not support trans students participating in sports that do not correlate to their biological birth sex.

10) Problem/Solution: What is your plan to tackle the problem with bullying, child sex crimes and the physical safety of our children?

There should be consequences in place for misbehavior of any kind. Crimes should be referred to the juvenile courts. Safety of our children is always the first priority.

11) School Board Meetings: How can the board make greater accommodations for all citizens who want to participate in school board meetings, including public comments?

Board meetings should always be open to the public and welcoming to those who wish to participate in the process. Online public comments should be accessible to those who wish to participate in that manner.

Candidate Information

Email Address: alee@bradleyschools.org
Occupation/Vocation: CFO
Years as a resident of Bradley County: 46 years
Campaign Website: do not have one

1) Purpose: What do you view as the purpose and role of the Bradley County School Board?

The purpose of the Bradley County School Board is to provide governance, oversight, and strategic direction for the school system, always with students' best interests at the center. The Board sets policy, approves the budget, and establishes long-term goals to support academic success and responsible operations. A key responsibility is hiring and evaluating the Director of Schools, ensuring strong leadership and holding them accountable for the system's performance, while not being involved in daily operations. The Board also serves as a bridge between the school system and the community, ensuring stakeholder voices are heard and reflected in decision-making. Ultimately, its role is to ensure Bradley County Schools deliver a high-quality education while responsibly managing public resources.

2) Candidate's Focus/Initiatives: What are your areas of special focus and/or expertise and what top three initiatives would you undertake as Bradley County School Board Member?

My areas of focus and expertise are in operations management, budgeting and financial oversight, and building strong partnerships with customers and stakeholders. Through my experience running and growing a business, I've developed a practical, results-driven approach to problem solving, cost management, and accountability—skills that translate directly to effective school board governance. As a Bradley County School Board Member, my top three initiatives would be:

1. Strengthen financial stewardship and transparency
2. Support workforce development and career pathways
3. Recruit, support, and retain high-quality teachers and staff

Overall, my focus would be on making thoughtful, data-driven decisions that improve student outcomes while maintaining strong accountability to the community.

3) Moral Values: Should government laws, ordinances, regulations, etc. follow the moral principles of the Ten Commandments? Why, or why not?

Laws and regulations should be grounded in broadly shared principles such as honesty, respect for others, personal responsibility, and justice—many of which are reflected in the Ten Commandments. Values like prohibitions against theft, lying, and harming others are foundational to a stable and functioning society. In my view, while moral principles similar to those found in the Ten Commandments can and do influence our legal system, laws should ultimately be based on common ground that applies to everyone, regardless of their personal faith.

4) Vision: What is your plan to get our schools back to the basics and fundamentals of public education?

My plan is to focus on the basics—reading, writing, and math—and make that the priority in every classroom. We need to make sure students are on grade level, support teachers so they can focus on teaching, and set clear expectations for behavior and performance. I also believe strong communication with parents is key, because education works best when schools and families are working together. If we stay focused on the fundamentals and hold high standards, we will see better results for our students.

5) Budget: Over 60% of taxpayer money goes to education in Bradley County. Only about 1/3 of 3rd and 8th graders are able to read at grade level. Without raising the budget, what is your solution to improving reading levels?

While Bradley County performs better than surrounding districts and above the state average in early reading, we're still not where we want or need to be as a district. My approach is to refocus resources on what works and to be more intentional. We're seeing relative success in the early grades compared to nearby districts, so we need to identify what's working and expand it—targeted reading intervention, small group instruction, and consistent, proven curriculum. We need to expand reading support so that we don't lose momentum after elementary school. If we build on what's working and make sure progress continues through every grade level, we will improve reading outcomes across the board.

6) Parental Rights: What is the best way to involve parents in the student's education? Who do you believe is the most important stakeholder in a student's education?

The best way to involve parents is through consistent, clear communication and making it easy for them to stay engaged. I believe the most important stakeholder in a student's education is the parent. Teachers and schools play a critical role, but a student's success is most influenced by what happens at home.

7) COVID Protocol: What is your position on school vax requirements, testing, contact tracing, masking and quarantines in the schools?

I believe it is a parent's choice whether to vaccinate their child, in consultation with their healthcare provider, and it should not be mandated by the school system beyond what is required by state law. Schools should focus on keeping students in the classroom and avoid broad mandates that disrupt learning.

8) CRT: What is your position for a curriculum that incorporates the teaching of diversity, equity and inclusion, Critical Race Theory and Social-Emotional Learning?

My position is that our schools should stay focused on core academics—reading, writing, math, and preparing students with the knowledge and skills they need to succeed.

9) Social-Emotional Learning/Sex Education: What is your stance on comprehensive sex ed, including details of LGBTQ sexual relationships, being taught in schools K-12? What is your stance on gender neutrality, co-ed bathrooms, trans sports?

My view is that schools should stay focused on core academics and provide age-appropriate instruction, while respecting the primary role of parents in addressing sensitive topics. I believe schools should avoid taking positions on complex social issues and instead focus on education.

10) Problem/Solution: What is your plan to tackle the problem with bullying, child sex crimes and the physical safety of our children?

My plan is to focus on prevention, accountability, and creating a safe, structured environment for every student. At the end of the day, nothing is more important than the safety of our children, and we must take a proactive, no-nonsense approach to protect them.

11) School Board Meetings: How can the board make greater accommodations for all citizens who want to participate in school board meetings, including public comments?

The Board already has important measures in place—meetings are videoed and publicly streamed, and there are established policies for anyone who wants to speak during public comment.
